Electric Heater Kit
(Sold Separately)

Compact Footprint makes them easy to install and transport, fitting some of the most aggressive lot lines that are trouble for leading competitors.

High-Static Blower utilizes a high-efficiency, 5-speed, fixed-torque, brushless-DC ECM.

Advanced Refrigeration Technology including a factory-installed, liquid line filter-drier.

Optional Electric Heater Kits are available for field-installation in Air Conditioners or Heat Pumps, ranging from 5-15 kW output.

Convenient Service Access to all control components, compressor, evaporator coil, and indoor blower; with perimeter high and low-side service ports.

Aluminum Micro-Channel Coils for both evaporator and condenser that are designed to optimize heat transfer, minimize footprint, decrease materials cost, reduce refrigerant volume, and resist formicary corrosion to support long service-life.

All DOE Regions can utilize the same models for simplified stocking throughout your entire distribution and installation networks.

Dependable Warranty and Support, handled directly by Style Crest's dedicated HVAC Team; offering the most competitive warranty coverage and service, in the Manufactured Housing Industry.
