

THERMOCOUPLE CLAMPS

Get right to it on up to 1-1/8" tubing with hilmor's Thermocouple Clamps. K-style connections offer a secure fit and are easy to use with other devices. This set is a perfect pairing for the hilmor Dual Readout Thermometer. When the job is done, it's easy to stow them away. Simply wrap the thermocouple wire around the handles, and secure the plug into the clamp.

Fast, Precise, Readings

Gets right to the temperature reading up to 1-1/8" tubing.

Secure Connections

K-style connections provide a tight fit and easy use with other devices.

Secure Storage

Stow it away simply by wrapping the thermocouple wire around the clamp and securing the plug.

Protect the thermocouple plug when not in use by wrapping the cord around the handle and plugging into the side socket.

Item Specifications

Item Number	1839108
Product Description	TCC
Connection Type	K
Accuracy	+/-2.0°C
Operating Temperature (plastic) -40°F to 250°F	

Product Dimensions

Lead wire length	36"
Length	5-1/4"
Width	7/8"
Height	3-1/4"
Weight	.175 lbs

Attach K-style clamps to an easily accessible spot on the hilmor manifold.

K-style clamps securely attach to tubing up to 1-1/8" for measurements on the double.
