

AQUAPUMP

Variable Speed Circulating Pumps

AQUAPUMP VARIABLE SPEED CIRCULATING PUMPS

For greater efficiency that sets new energy installation specifications, we have two variable speed circulating pump options – as well as fixed speed. The first variable speed pump is made of cast iron for closed systems. The second is a stainless-steel potable pump for open looped systems and potable domestic hot water recirculation.

SAVE TIME. SAVE ENERGY.

Whether you are installing a pump with zone valves or a complete circulating pump zoning solution, Resideo now offers you one brand with endless application flexibility. With AquaPUMP you get:

- **Five different modes of operation** provide versatility to cover the performance of a wide range of fixed and variable speed circulators utilizing pressure responsive control.
- **Built-in quality**
 - Easy access to the terminal block for wiring
 - Large wiring chamber and front-mounted terminal block
 - Reliable and easy to install in the field
 - New pumps feature a 5-year warranty
- **Quiet Operating ECM** reduces energy consumption, operational noise and vibrations to help extend the life of the pump and eliminate callbacks.
- **Separate Flow Check** is sold as a standalone part so there is no need to stock a separate pump assembly.
- **Certification**
 - ETL listed for US and Canada (conforms to UL STD 778 certificated to CSA STD C.22.2 NO. 108-01).
 - NSF 372 (stainless steel model)

PRODUCT NUMBER	PUMP CASTING	MAX. FLOW		MAX. PRESSURE HEAD		CONNECTIONS		WEIGHT IBS. (KG)	DIMENSIONS
