

Furnace Season Webinars

What to expect:

These two 30 minute training webinars are perfect for the start of heating season and for newer techs in the industry. Jaymes Porter will be the presenter for both webinars.

November 23rd - 7:30 am TXV Theory and Troubleshooting

This class will cover:

- TXV function
- Parts breakdown
- Field Checks
- Common failures

November 24th - 7:30 am ECM Diagnostic Checks and Repair

This class will cover:

- Types of ECM motors
- Why ECM motors are used
- How ECM motors function
- Checking common ECM motors
- Replacing the motor vs the module
